***Allowable Subject Matter***

1. Claims 1-12, and 14-22 are allowed over the prior art of record.

2. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach a method and system for modifying a call set up message, comprising first instructions, responsive to reading a telephone number of a called telephone device in a call set up message, for interrogating a subscriber record database and determining the call set up message is to be terminated by a forward-to telephone device, wherein the first instructions insert caller identification information of the called telephone device into a first caller identification field of the call set up message; and second instructions for transmitting the call set up message to a switching system servicing the forward-to telephone device, as substantially described in independent claims 1, 8, 15 and 21.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
